

The new GLS brand identity

We are very excited to introduce you to our new brand identity, today.

Is this a big change? Yes and No. We will continue to do what we do best: **delivering from person to person** and carrying your ambitions, dreams and hopes, because a box is never just a box.

GLS is dynamic and flexible. GLS is international and leading-edge. The updated brand identity reflects what we stand for and our future ambitions.

GLS will give you the most personal and seamless service as always.

We will help you achieve your ambitions, no matter what they are, and we will do it in the streets, in front of your door or at the pick-up point.

See you there!
