DANGEROUS GOODS, TENDERING OF

Prior to tendering any dangerous goods to GLS Canada for carriage, a Shipper must:

- (i) know the appropriate classification of the dangerous goods;
- (ii) ensure proper packaging in accordance with applicable laws;
- (iii) provide proper marking and labeling of each piece in accordance with applicable laws;

- (vii) be trained, including holding a training certificate where applicable, to perform any activities relating to dangerous goods in accordance with applicable laws, including packaging and preparation for carriage.

Dangerous goods may only be tendered to a GLS Canada facility or driver. Tendering a Shipment containing dangerous goods to GLS Canada does not mean it has been "accepted for carriage" by GLS Canada. A Shipment containing dangerous goods is only accepted once a GLS Canada Dangerous Goods Specialist has verified the shipment at a GLS Canada facility. Dangerous goods will travel in accordance with the terms and conditions applicable to the selected service and once accepted by GLS Canada.

DECLARED VALUE

4.25% of declared value

Customers may declare a value for the Shipment on the Bill of Lading.

If a value is declared:

A surcharge of 4.25% of the amount of the declared value will be applied to all shipments with a declared value exceeding C\$100;

Customers must declare a value for the Shipment on the Bill of Lading in order to be entitled to submit a claim for the declared value of the Shipment. In no event shall GLS Canada pay a claim for a declared value that exceeds the actual value of the lost or damaged Shipment. For greater certainty, the declared value surcharge does not constitute insurance but rather an increase of GLS Canada's limitation on liability. Shipments that contain prohibited items or items accepted under contractual exception that are inadvertently accepted by GLS Canada will travel at the Shipper's risk on a no-value basis. GLS Canada will not accept liability for any costs or penalties arising from late deliveries or missed appointments. If a Shipper declares the value of a shipment exceeding \$100.00, then a pre-authorization must be obtained from GLS Canada Customer Service prior to shipping. A Special Agreement number will be issued and must be visible on the waybill shipping document, label or manifest to validate the declared value liability. Even with said authorization number, GLS Canada holds the right to refuse shipment at pickup should the driver determine the shipment is at high risk of damage or loss. Declared value will not be accepted on shipments traveling outside of Canada.

If a Shipper, Receiver or Third Party has an extremely time sensitive package, the loss or delay of which may result in consequential damages, the Shipper must contact his own insurance agent or broker to insure against such risks, as GLS Canada does not assume such liabilities. GLS Canada does not provide and will not arrange for such insurance.

In the case of signature not requested (SNR) shipments, claims should be filed within 48 hours of delivery. Claim settlement is subject to GLS Canada's Terms and Conditions of transport.
