

Information international parcel shipment

Status: June 26, 2020, 10 am CET

Changes are marked in red

Please note that in the various countries different restrictions apply across industries. Industries such as restaurants, schools and universities tend to be closed and industries such as food stores, pharmacies, and gas stations are open. Restrictions do not necessarily apply to deliveries, therefore we ask you to clarify in advance with your recipients in the respective countries whether shipments can be accepted. Furthermore, business consignees should highlight in their shop whether it is open or that parcels can be delivered.

The **maximum weight limitation will temporarily be reduced to 31.5 kg** across the entire European network starting from 06.04.2020. **National shipments within Germany are not affected** by this restriction, they only apply to export shipments (EBP and Express).

Country	Blocked Areas	Situation Cross Border
AT – Austria	Currently no restrictions	International linehaul is operational
